Bud! Duck Duck Duck Goose the other three flaps.

Now to finish your martian bouncing spider, grab the tip of each leg one at a time and gently pull down and out till the middle of the leg becomes tubelike. It’s not as sad as it sounds because...

Odd note here: If you feel the need to improve your spider’s bounce, do some careful wetfolding at the end, or use glue {editor says NO!} if you want to hold the square part of his body together, or just use stiff paper like I do and it should work just fine! –Perry

...The Martian Bouncing Spider is all done, and all set ready to go on a jumpin’ jubilee!
